

# \*!\* WARNING \*!\*

## ***Carter Bros Mini Talon Kart Models***

### **NOTICE:**

On all Mini Talon Kart models, the engine manufacturer, Tecumseh Engines Inc., does not pre-service the engine with oil.

Carter Brothers does not pre-service the engine with oil prior to shipment.

On ALL Mini Talon Kart Models, engine oil MUST BE ADDED during PDI/set up. Failure to do so will result in severe engine damage and void the engine warranty.

### ***Helpful Hint from Carter Brothers:***

*When installing the Custom Bar Cage (CBC), use a 6 millimeter x 100 thread chaser to clean debris from the ends of each CBC bar with bolt attachment holes. This will eliminate problems aligning & assembling the CBC.*
