

CHEATA BIKES

MILWAUKEE INSPIRED • MILWAUKEE DESIGNED • MILWAUKEE BUILT

Warranty

Due to their nature, a level of mechanical ability is required to operate motor bicycles. Because of this required aptitude, we find it difficult to warranty motor bicycles. Here is what we do and don't cover under warranty: Our warranty covers all manufacturers defects on the engine and engine related parts for 120 days and 60 days labor. The customer pays all shipping costs. We do not warrant piston seizures or stripped bolts, nuts or studs under any circumstances. We will provide our customers with parts if covered under warranty-this does not include mechanics' labor. We always ask that the customer send the damaged item(s) back to us for inspection and for us to keep, in return, we ship a new part if under warranty. It is the buyer's responsibility to judge his or her own mechanical aptitude before purchasing a motor bicycle. We will not warranty parts just because the buyer is unable to install it onto their bicycle. Failure to read and follow all maintenance instructions for a motor bicycle voids any and all warranty. We are here to answer any questions and help troubleshoot any problems that should arise with a motor bicycle purchased from our shop. In the end, we stand behind our products and know that you demand quality. We are here for you. Should you have any questions or concerns about your Cheata Bike, please contact us at: sales.cheatabikes@gmail.com or call Bill at 262-391-4366.
