

TrailMaster MINI / MID-R reverse gearbox oil change
instruction

1. the reverse gearbox has one oil drain plug as indicated the picture, use wrench to open it and drain the gear oil:

2. Close the drain plug when all the gear oil has been drained out, use hand to open the oil refill cap as indicated in the picture:

3. Refill gear oil GL-85W-90 7 to 8 oz into the gearbox.
4. Put the oil refill cap back onto the gearbox (don't forget to put the seal ring back!)
